

Education Report to council Feb. 2010

Spring Outreach

Eva will be coordinating these two spring out-reach projects! I am excited that ALL of the Sunday morning classes will be encouraged to participate. It was one of my goals to have 4 outreach projects over the course of the 2010 SS year. See the Education Report for more details.

Day Camp

I am beginning to coordinate Day Camp for this summer. The dates that we have reserved for Sky Ranch to lead us for the week are June 7th -10th I will also be talking with LOC to see if they are interested in partnering with us for another year.

College Scholarships

Looking forward to the scholarships that we normally offer each spring I am concerned that we will not have the funds this year to continue with this gift to our college bound members. I will be talking with the Education committee later on this month and will determine at that time if this is something that we want to continue for this year, if so how we will build up the fund to have enough to offer to the applicants.

Learn by Heart

We will once again begin preparing for the LBH recognition Sunday in April. We will continue to lift up this program over the next several months and strongly encourage families to help their children learn these verses at home, as this is the primary place of faith nurturing.

Splash

We are currently sending SPLASH packets to 6 families in our congregation. We will be adding two more over the next few months. I will be contacting these families to do follow up calls this month. This is a great way that we as a congregation support these newly baptized children and their parents, as these little ones grow and change.

Cornerstone Preschool

The committee met the last week in January and had a very productive meeting. Everything is flowing well for the preschool at this time. Andrea would like us to continue to pray for enrollment for the summer and fall programs.

Blessings,

Dawn
